

Dolphin BINGO: Species Edition

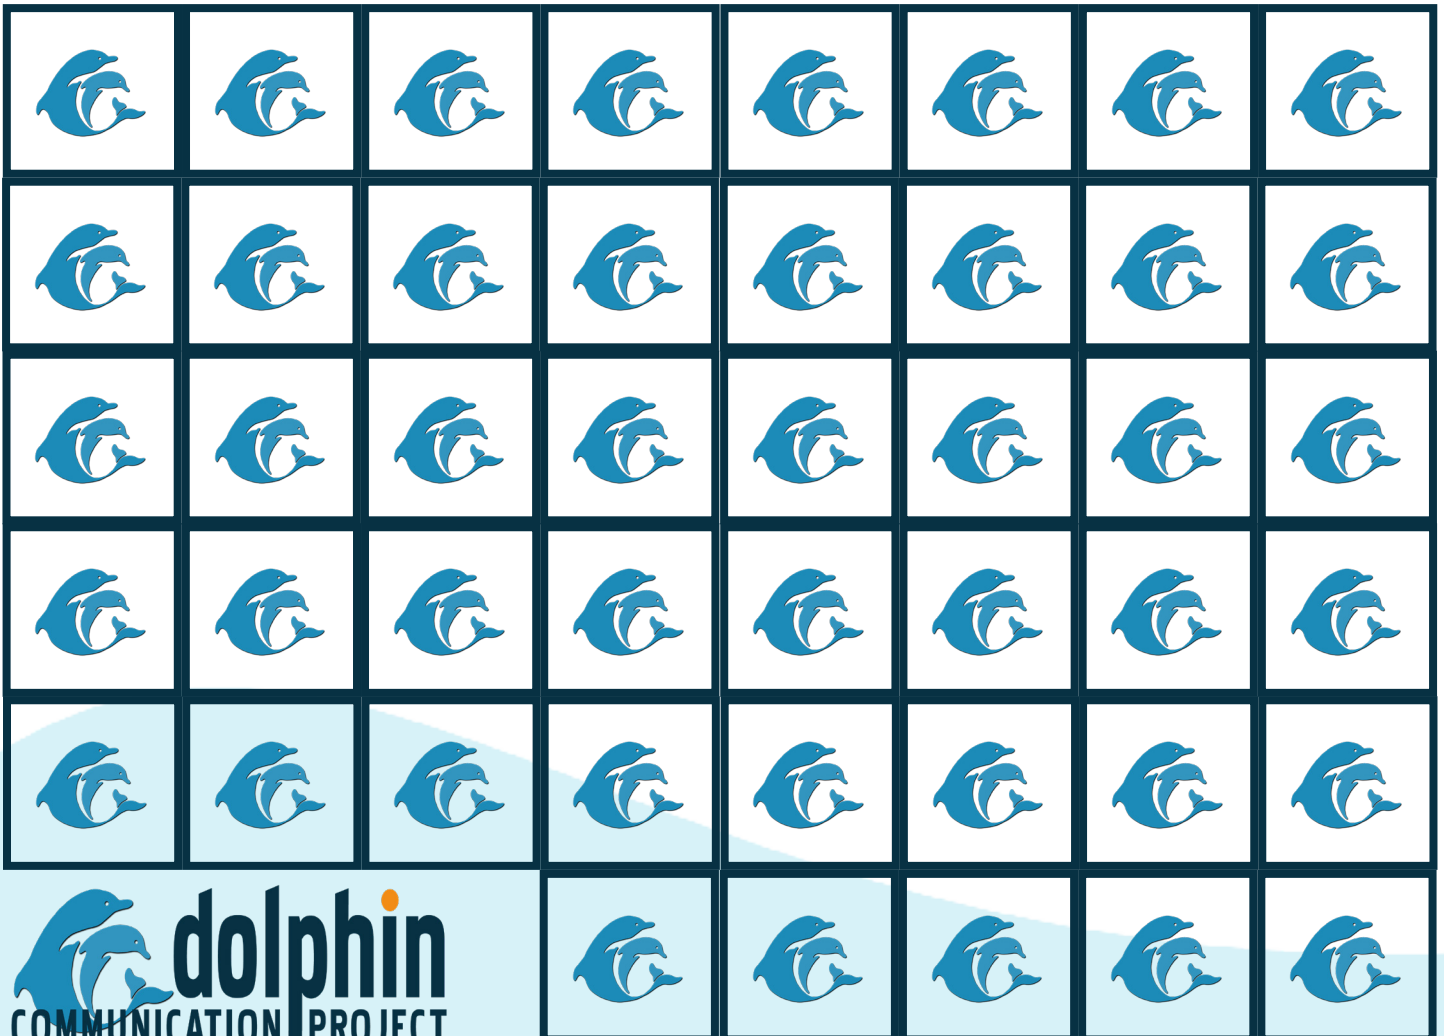

Suggested Directions:

Print out Bingo cards. Each player can have one or more Bingo cards.

Print dolphin symbols directly onto cardstock or print and glue onto card stock. Print extra pages of “chips” as needed based on the number of players. Cut out the squares. These are your Bingo “chips.” Alternatively, you can use any playing pieces you have handy (ex, small coins, small Lego pieces) as your “chips.”

Print letter/word squares directly onto cardstock or print and glue onto card stock. Cut out squares. Mix up the cards and place facedown on a table or in a bag. Pull out one card at a time, calling the letter/word out to the players.

Any player(s) who has the letter/word combination on their Bingo cards places a “chip” on the appropriate square. The first player who has five squares in a row (up, down, or diagonal) says “Bingo!” and is the winner.

 **dolphin**
